

LEETON 2010 ANNUAL BRANCH REPORT.

It gives me pleasure to present my seventh annual report as president of Leeton branch.

We have had a fairly busy year with our commitments to Anzac day Rememberance and Nasho day. Attendance on Nasho day was the best ever with a good rollup of members for the service and the after function. We also had representation at our local High schools Anzac services and it is pleasing to note the increased participation of all students on this important occasion.

Our monthly meetings are well attended but this year we have had a slight decline in membership due mainly to advancing years which I fear will be an on going problem.

Social activities remain boyant with a visit to Hay for a very congenial B.B.Q Darlington Point a B.B.Q hosted by Griffith branch culminating with another B.B.Q by our branch where our great mates from Hay and Griffith nearly fillrd the Leeton race course for an enjoyable fun Saturday afternoon.

Other activities included a visit to the Temora aviation museum, annual raffle and of course the christmas party which again was a hoot thanks to the organisation and wonderful contribution by our ladies.

I had the honour of representing our association president Wal at the ceremony to relocate the Hay National Service monument to its permanent position in the Hay War Memorial high school grounds, it was a very well organised and moving ceremony and congratulations to the members of Hay branch for a job well done.

We would like to take this opportunity to thank National branch executive for their years of hard work and dedication to the association and keeping the branches informed.

We are looking forward to the coming year and wish all branches and members success and good health,

**Col WALKER
President**
